

BP-PBP14A7

14 slots BACKPLANE ACTIVE PICMG 1.0

Features :

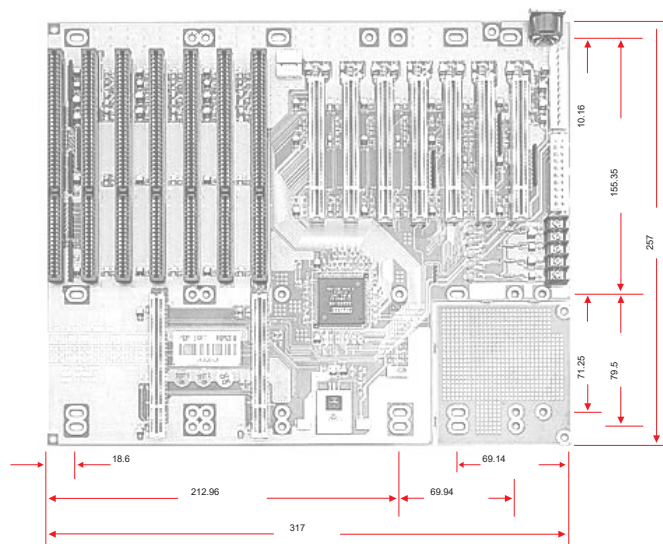

To support more PCI slots (such as 7, 12 and 18 slots), we adopt the most popular PCI bridge chipset to extend PCI slots. Traditional Backplanes only allow passive components to be put on the Backplanes.

To meet this demand, we put the active chipset on the Backplanes. Therefore, they will be no longer called "Passive Backplanes" but "Active Backplanes".

General Specification :

Format	Full Size backplane ATX
Size	317 x 257 mm
Slots	14 slots total
	2 x PCIMG
	5 x ISA 32bit
	7 x PCI (32)
Power	ATX or ATP or Wires
Other	AT Keyboard connector

Dimension :
